

Tamil Nadu Skill Development Corporation (TNSDC)

Niral Thiruvizha 3.0 (2025 - 2026)

Regional Review - Chennai - MIT (5th August, 2026)

S.NO	NMNT ID	Region	College	Review Date	Session	Panel	Team Name	Problem Statement	Theme
1	NMNTSTD41240223	Chennai	Sri Sai Ram Institute of Technology	05/08/2026	FN	1	Signal Surgeons	Develop a suitable technology to provide prior intimation to people that natural calamities like Tsunami, Heavy rainfall, cyclones, land slides, etcâ€¦, going to occur.	Climate Change/ Disaster management
2	NMNTSTD41240477	Chennai	Sri Sai Ram Institute of Technology	05/08/2026	FN	1	Pestiscan AI	Design and develop an innovative solution that utilizes technology to improve farming practices, increase crop yields,and reduce waste.The solution should be scalable, sustainable,and accessible to smallholder farmers.	Agriculture/ Food Tech
3	NMNTSTD41240345	Chennai	Sri Sai Ram Institute of Technology	05/08/2026	FN	1	Shadow	How can we develop an accessible platform for visually and hearing-impaired students, integrating sign language and visual aids to enhance accessibility and comprehension?	Smart Education/ Edu-Tech/ Skill Development
4	NMNTSTD41240699	Chennai	Sri Sai Ram Institute of Technology	05/08/2026	FN	1	uniquix	How can we design an image processing algorithm for portable X-ray devices to reduce noise, enhance contrast, and sharpen images without altering critical diagnostic details? This includes considering hardware limitations, ensuring computational efficiency, and validating with diverse datasets for accurate clinical application.	Med Tech/ Bio Tech/ Health Tech
5	NMNTSTD41250244	Chennai	Sri Sairam Engineering College	05/08/2026	FN	1	Turbo Titan	How might we develop an automated water distribution system that ensures 55 LPCD per person, prevents wastage, and reduces electricity usage in rural households?	Rural & Urban development/ Manufacturing/ Engineering Technology
6	NMNTSTD41250583	Chennai	Sri Sairam Engineering College	05/08/2026	FN	2	Niral Vigyanis	How might we design a cost-effective home composting solution for daily kitchen waste, ensuring quick and odor-free decomposition?	Clean, Green & Renewable Energy
7	NMNTSTD41250981	Chennai	Sri Sairam Engineering College	05/08/2026	FN	2	REDSTAR	How might we develop a user-friendly digital assistant providing legal information in multiple languages? Aiming to enhance accessibility and improve legal awareness among marginalized communities in India.	Artificial Intelligence
8	NMNTSTD41250969	Chennai	Sri Sairam Engineering College	05/08/2026	FN	2	ROVEX	How can we design an economical device, such as robotic boats, to efficiently collect plastic waste in marine ecosystems and integrate anti-pollutant technologies to protect and sustain the marine environment?	Robotics/ Drone/ Industry 4.0

9	NMNTSTD41251646	Chennai	Sri Sairam Engineering College	05/08/2026	FN	2	Cryptex Crew	How might we develop an efficient system to monitor and assess road quality in real-time, using technology to detect issues like potholes, cracks, and wear to improve maintenance and safety?	Artificial Intelligence
10	NMNTSTD41250709	Chennai	Sri Sairam Engineering College	05/08/2026	FN	2	Team Aquasense	Design and develop an innovative solution that utilizes technology to improve farming practices, increase crop yields, and reduce waste. The solution should be scalable, sustainable, and accessible to smallholder farmers.	Agriculture/ Food Tech
11	NMNTSTD41250087	Chennai	Sri Sairam Engineering College	05/08/2026	FN	2	EEFVS	Design and develop an innovative solution that utilizes technology to improve farming practices, increase crop yields, and reduce waste. The solution should be scalable, sustainable, and accessible to smallholder farmers.	Agriculture/ Food Tech
12	NMNTSTD41280043	Chennai	SRM VALLIAMMAI ENGINEERING COLLEGE	05/08/2026	FN	2	AGRONOVA	Design and develop an innovative solution that utilizes technology to improve farming practices, increase crop yields, and reduce waste. The solution should be scalable, sustainable, and accessible to smallholder farmers.	Agriculture/ Food Tech
13	NMNTSTD41280062	Chennai	SRM VALLIAMMAI ENGINEERING COLLEGE	05/08/2026	FN	2	LUMORA	Design and develop an innovative solution that utilizes technology to improve farming practices, increase crop yields, and reduce waste. The solution should be scalable, sustainable, and accessible to smallholder farmers.	Agriculture/ Food Tech
14	NMNTSTD41280149	Chennai	SRM VALLIAMMAI ENGINEERING COLLEGE	05/08/2026	FN	2	Electroglow	How might we develop an innovative and cost-effective solution to enhance the efficiency of solar panels by optimizing energy absorption, reducing losses, and improving performance in varying environmental conditions?	Clean, Green & Renewable Energy
15	NMNTSTD41280396	Chennai	SRM VALLIAMMAI ENGINEERING COLLEGE	05/08/2026	FN	2	FLOWSECURE AI	How might we develop a centralized digital platform to connect all PHCs, Upgraded PHCs, and Sub-Centres with the Deputy Director of Health Services (DDHS), enabling real-time monitoring of doctor attendance, healthcare services, and automated absenteeism alerts to improve healthcare delivery across divisions?	Med Tech/ Bio Tech/ Health Tech
16	NMNTSTD41280198	Chennai	SRM VALLIAMMAI ENGINEERING COLLEGE	05/08/2026	FN	3	NIRAL GREEN ENERGY	How might we develop an innovative and cost-effective solution to enhance the efficiency of solar panels by optimizing energy absorption, reducing losses, and improving performance in varying environmental conditions?	Clean, Green & Renewable Energy

17	NMNTSTD31010205	Chennai	ANAND INSTITUTE OF HIGHER TECHNOLOGY	05/08/2026	FN	3	Error Squad	Design and develop an innovative solution that utilizes technology to improve farming practices, increase crop yields, and reduce waste. The solution should be scalable, sustainable, and accessible to smallholder farmers.	Agriculture/ Food Tech
18	NMNTSTD31010335	Chennai	ANAND INSTITUTE OF HIGHER TECHNOLOGY	05/08/2026	FN	3	Blink vision	How can we design an image processing algorithm for portable X-ray devices to reduce noise, enhance contrast, and sharpen images without altering critical diagnostic details? This includes considering hardware limitations, ensuring computational efficiency, and validating with diverse datasets for accurate clinical application.	Med Tech/ Bio Tech/ Health Tech
19	NMNTSTD31010006	Chennai	ANAND INSTITUTE OF HIGHER TECHNOLOGY	05/08/2026	FN	3	Code Wizards	How might we create a skill/job recommender application using suitable technology, transforming career guidance by leveraging technology to match individuals with suitable jobs, fostering efficient employment and career development?	Smart Education/ Edu-Tech/ Skill Development
20	NMNTSTD31280460	Chennai	Agni College of Technology	05/08/2026	FN	3	Solution squad	How might we develop an innovative and cost-effective solution to enhance the efficiency of solar panels by optimizing energy absorption, reducing losses, and improving performance in varying environmental conditions?	Clean, Green & Renewable Energy
21	NMNTSTD31280230	Chennai	Agni College of Technology	05/08/2026	FN	3	ReGenX	How might we design compact, cost-effective, non-polluting environment-friendly waste management systems thereby overcoming shortage of suitable land and addressing chronic waste management issues in densely populated areas?	Solid Waste/ Bio-waste/ E-waste
22	NMNTSTD31280437	Chennai	Agni College of Technology	05/08/2026	FN	3	Aegis Pattern	How might we develop a cost-effective and innovative solution to predict, monitor, and mitigate flooding risks in vulnerable coastal and urban regions using data-driven and technology-enabled approaches?	Climate Change/ Disaster management
23	NMNTSTD42130078	Chennai	KRISHNASAMY COLLEGE OF ENGINEERING AND TECHNOLOGY	05/08/2026	FN	3	Black Mirage	How might we develop a GIS-based solution for automating the approximate assessment of property tax? This system would streamline the process and enhance accuracy in property valuation for tax purposes, ensuring more efficient and transparent tax management.	Robotics/ Drone/ Industry 4.0
24	NMNTSTD42130042	Chennai	KRISHNASAMY COLLEGE OF ENGINEERING AND TECHNOLOGY	05/08/2026	FN	3	FOUR FIRE	How might we develop an efficient system to monitor and assess road quality in real-time, using technology to detect issues like potholes, cracks, and wear to improve maintenance and safety?	Artificial Intelligence

25	NMNTSTD42130056	Chennai	KRISHNASAMY COLLEGE OF ENGINEERING AND TECHNOLOGY	05/08/2026	FN	3	FlowMinde r	How might we develop an automated water distribution system that ensures 55 LPCD per person, prevents wastage, and reduces electricity usage in rural households?	Rural & Urban development/ Manufacturing/ Engineering Technology
26	NMNTSTD42210001	Chennai	St. Anne's College of Engineering and Technology	05/08/2026	AN	1	Tech Titans	How can we develop an accessible platform for visually and hearing-impaired students, integrating sign language and visual aids to enhance accessibility and comprehension?	Smart Education/ Edu-Tech/ Skill Development
27	NMNTSTD42210011	Chennai	St. Anne's College of Engineering and Technology	05/08/2026	AN	1	Lovely Queens	How can we develop an accessible platform for visually and hearing-impaired students, integrating sign language and visual aids to enhance accessibility and comprehension?	Smart Education/ Edu-Tech/ Skill Development
28	NMNTSTD42260008	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	1	BLUEGUA RD	How might we develop an automated water distribution system that ensures 55 LPCD per person, prevents wastage, and reduces electricity usage in rural households?	Rural & Urban development/ Manufacturing/ Engineering Technology
29	NMNTSTD42260013	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	1	PaveTech	How might we develop an efficient system to monitor and assess road quality in real-time, using technology to detect issues like potholes, cracks, and wear to improve maintenance and safety?	Artificial Intelligence
30	NMNTSTD42260039	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	1	blue dragon	How might an innovative solution address communication challenges in remote areas, such as hilly and forest regions with weak or no network coverage? The goal is to develop an affordable and accessible emergency communication system, considering that satellite phones are financiallyunfeasible for most of the population.	Information/Com munication Technology
31	NMNTSTD42260001	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	1	EEE Panruti Firstbench Duo	How to provide smart education to the poor (below poverty line) students inorder to improve their skills (Abacus/ Communication Skills, etc) based on their students interest during Saturday, Sunday and Holidays.	Smart Education/ Edu-Tech/ Skill Development
32	NMNTSTD42260010	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	1	Future Innovator s	How might we design an AI driven app incorporating climate modelling, disease management, soil testing, market forecasting which will provide farmers with valuable inputs, guidance on crop management, sustainable agricultural practices. irrigation strategies, use of agricultural inputs and choice of crops?	Agriculture/ Food Tech

33	NMNTSTD42260032	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	1	CODE BLASTERS	How might we develop a digital solution that allows users to check ongoing court cases associated with a specific survey number by simply entering the village name and survey number, ensuring transparency and easy access to land litigation details?	Artificial Intelligence
34	NMNTSTD42260067	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	1	TECH VERSE	How might we develop a sustainable solution to prevent the abandonment of salt pans, ensuring their continued use and reducing hypersaline conditions, while preserving critical avian habitats and supporting biodiversity?	Climate Change/ Disaster management
35	NMNTSTD42260065	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	1	Mind bloggers	How might we develop an efficient system to monitor and assess road quality in real-time, using technology to detect issues like potholes, cracks, and wear to improve maintenance and safety?	Artificial Intelligence
36	NMNTSTD42260037	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	2	Digital Tree	How might we develop a digital solution that allows users to check ongoing court cases associated with a specific survey number by simply entering the village name and survey number, ensuring transparency and easy access to land litigation details?	Artificial Intelligence
37	NMNTSTD42260100	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	2	Hygiene Tech Solutions	How might we design an extendable, adjustable-hand fork for sanitation workers (Thooimai Paniyalargal) in rural areas, allowing them to safely and efficiently separate plastic waste from organic waste while minimizing direct contact and improving safety and comfort?	Solid Waste/ Bio-waste/ E-waste
38	NMNTSTD42260064	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	2	Hackers Team	How might we utilize AI chatbots and machine learning to address the challenges of incomplete alleviation of depression symptoms, attrition, and loss of follow-up in mental health treatment	Artificial Intelligence
39	NMNTSTD42260083	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	2	SPARK	How might we utilize AI chatbots and machine learning to address the challenges of incomplete alleviation of depression symptoms, attrition, and loss of follow-up in mental health treatment	Artificial Intelligence
40	NMNTSTD42260003	Chennai	UNIVERSITY COLLEGE OF ENGINEERING PANRUTI	05/08/2026	AN	2	Yellow Flash	How might we create a skill/job recommender application using suitable technology, transforming career guidance by leveraging technology to match individuals with suitable jobs, fostering efficient employment and career development?	Smart Education/ Edu-Tech/ Skill Development
41	NMNTSTD82240003	Chennai	M R K INSTITUTE OF TECHNOLOGY	05/08/2026	AN	2	Gold wings	How might we utilize AI chatbots and machine learning to address the challenges of incomplete alleviation of depression symptoms, attrition, and loss of follow-up in mental health treatment	Artificial Intelligence

42	NMNTSTD62110002	Chennai	Idhaya Engineering College for Women	05/08/2026	AN	2	NiralTech	Develop a GPS - enabled tracking and monitoring system for vehicles transporting earth excavated under permitted conditions. The System should ensure real - time tracking of trips, verify compliance with excavation limits and prevent illegal mining activities by detecting unauthorized or repeated trips.	Transportation/ Logistics/ Smart Vehicles
43	NMNTSTD62110249	Chennai	Idhaya Engineering College for Women	05/08/2026	AN	2	High Flyers	How might we utilize AI chatbots and machine learning to address the challenges of incomplete alleviation of depression symptoms, attrition, and loss of follow-up in mental health treatment	Artificial Intelligence
44	NMNTSTD62110135	Chennai	Idhaya Engineering College for Women	05/08/2026	AN	2	Dream chasers	How might we utilize AI chatbots and machine learning to address the challenges of incomplete alleviation of depression symptoms, attrition, and loss of follow-up in mental health treatment	Artificial Intelligence
45	NMNTSTD62110006	Chennai	Idhaya Engineering College for Women	05/08/2026	AN	2	Delyt	How might we develop a cost-effective and innovative solution to predict, monitor, and mitigate flooding risks in vulnerable coastal and urban regions using data-driven and technology-enabled approaches?	Climate Change/ Disaster management
46	NMNTSTD51060107	Chennai	C. Abdul Hakeem college of engineering and technology	05/08/2026	AN	3	TechTitans	How might we design an AI driven app incorporating climate modelling, disease management, soil testing, market forecasting which will provide farmers with valuable inputs, guidance on crop management, sustainable agricultural practices. irrigation strategies, use of agricultural inputs and choice of crops?	Agriculture/ Food Tech
47	NMNTSTD51060091	Chennai	C. Abdul Hakeem college of engineering and technology	05/08/2026	AN	3	ELITE INNOVATORS	Develop a GPS - enabled tracking and monitoring system for vehicles transporting earth excavated under permitted conditions. The System should ensure real - time tracking of trips, verify compliance with excavation limits and prevent illegal mining activities by detecting unauthorized or repeated trips.	Transportation/ Logistics/ Smart Vehicles
48	NMNTSTD51180006	Chennai	PODHIGAI COLLEGE OF ENGINEERING AND TECHNOLOGY	05/08/2026	AN	3	Niranjan	How might we develop an efficient system to monitor and assess road quality in real-time, using technology to detect issues like potholes, cracks, and wear to improve maintenance and safety?	Artificial Intelligence
49	NMNTSTD51190015	Chennai	Priyadarshini Engineering college	05/08/2026	AN	3	FUTURE THAMIZHAN	To create an AI-powered nutrition analyzer for fitness enthusiasts, revolutionizing dietary tracking and personalizing nutritional insights to optimize health and fitness goals effectively	Artificial Intelligence

50	NMNTSTD51310137	Chennai	THANTHAI PERIYAR GOVT INSTITUTE OF TECHNOLOGY	05/08/2026	AN	3	Civil fire	How might we develop a sustainable solution to reuse or recycle scrap generated in the rubber industry (such as from manufacturers of caskets, bushes, and other rubber components) to minimize waste and promote resource efficiency?	Solid Waste/ Bio-waste/ E-waste
51	NMNTSTD42100023	Chennai	Quannta school of software engineering	05/08/2026	AN	3	SIGMA SQUAD	How might we create a centralized Learning Management System that integrates user logins, course enrollment, attendance, assessments, and certifications into a seamless and intuitive dashboard?	Information/Communication Technology
52	NMNTSTD42100026	Chennai	Quannta school of software engineering	05/08/2026	AN	3	Rising Stars	How might we develop a blockchain-based application to identify and counter fake social media profiles? Tailored for investigative agencies and law enforcement, enhancing profile authenticity and security.	Information/Communication Technology
53	NMNTSTD42110183	Chennai	IFET COLLEGE OF ENGINEERING	05/08/2026	AN	3	Quantum Unit	How might we develop a user-friendly digital assistant providing legal information in multiple languages? Aiming to enhance accessibility and improve legal awareness among marginalized communities in India.	Artificial Intelligence
54	NMNTSTD42270013	Chennai	V.R.S. COLLEGE OF ENGINEERING AND TECHNOLOGY	05/08/2026	AN	3	VisionX	How might we develop an innovative, cost-effective, user-friendly, and sustainable solution to control the rapid spread of water hyacinth in aquatic ecosystems, while converting its biomass into economically and environmentally beneficial products?	Agriculture/ Food Tech
55	NMNTSTD42040092	Chennai	ADHIPARASAK THI ENGINEERING COLLEGE	05/08/2026	AN	3	Zilo	How might we design compact, cost effective, non polluting environment-friendly waste management systems thereby overcoming shortage of suitable land and addressing chronic waste management issues in densely populated areas?	Solid Waste/ Bio-waste/ E-waste
